

# Alekseev Evsey Savvich

My maternal grandfather's name was Alekseev Evsey Savvich. He was born in 1920 in the village of Leegi, Amginsky district in a family of hunters. His childhood passed mostly far from the center of life. He had seven brothers and sisters. He went to defend his homeland in 1943, at the age of 23. He served in the artillery regiment. He returned home only after a short Soviet-Japanese war in 1946. In peacetime, he started a family and raised five brothers.
